

# Contractor Accreditation Application Form (Developer Works / Private Works)

New application (complete all sections of this form)

Re-accreditation application (complete sections I and II and any other sections if information has changed since your last application)

## Important note

- This Contractor Accreditation Application Form is to be lodged by the contractor who is seeking Accreditation with Barwon Water for works or services concerning the construction of water infrastructure (including Developer's Water Infrastructure and Connection Points related to Private Water Infrastructure) for the first time, or if the contractor is seeking renewal of the Accreditation.
- This form forms part of the Contractor Accreditation Deed and is subject to its terms and conditions. Read the Contractor Accreditation Deed carefully before completing and submitting this form. It is available at Barwon Water's website.
- Any words beginning with capital letters shall have the meaning as set out in the Contractor Accreditation Deed unless otherwise defined herein. Any words beginning with capital letters which are not defined in the Contractor Accreditation Deed or this form shall have the technical meaning which is common in the water infrastructure and construction industry.
- You must submit a complete form. BW may decline to consider incomplete forms.
- BW may reject this Accreditation Application Form if:
  - you do not meet all requirements as prompted in this Accreditation Application Form;
  - you have not submitted a complete Accreditation Application Form including all documentation as required in the Accreditation Application Form to BW;
  - you do not have provided BW with any certificates and information as prompted in the Accreditation Application Form and/or with any additional information as reasonably required by BW; and
  - BW is not sufficiently satisfied that you have and will maintain the ability to comply with the obligations under the Accreditation Deed.
- Once, BW accepts your Accreditation Application Form, we will notify you and will ask you to sign the Contractor Accreditation Deed.
- Only after signature of the Contractor Accreditation Deed by all parties, your Accreditation is complete.
- For applications for Re-Accreditation, please fill in the information under I. and II. And fill in any other field in case that there have been changes compared to your last application for Accreditation or compared to your last renewal application.

## IX. Accreditation Category, the Contractor wishes to be Accredited for

(For definitions of Accreditation Categories see definition part below)

1S Reticulation Sewer	2S Branch Sewer	3S Major Infrastructure Sewer	1W
Reticulation Water	2W Distribution Water	3W Major Infrastructure Water	4W Steel
Pipelines	5 Ancillary		

Accreditation Category	Definition / Description
1S	Reticulation Sewer: Sewer mains (excluding pressure sewer pipelines) < DN 300: This Category of work covers supply and install, testing and commissioning of sewer reticulation, including maintenance structures and connections.
1W	Reticulation Water: Water mains < DN 225: This Category of work covers supply and install, testing and commissioning of potable water and recycled water mains (excludes steel pipelines) and connection/tapping works.
2S	Branch Sewer: Sewer mains >=DN 300: This Category of work covers supply and install, testing and commissioning of sewer pipelines including maintenance structures. Applicants must demonstrate they meet the assessment criteria and other prerequisites for Category 1S to be eligible for accreditation in this Category.

2W	Distribution Water: Water mains $\geq$ DN225: This Category of work covers supply and install, testing and commissioning of potable water and recycled water mains (excludes steel pipelines) and connection/tapping works. Applicants must demonstrate they meet the assessment criteria and other prerequisites for Category 1W to be eligible for accreditation in this Category.
3S	Major Infrastructure Sewer: this category of work covers the supply and install of Sewerage Pumping Stations, rising (pressure) mains, mechanical and electrical equipment, including electrical supply and control, and switchboard and cabinet construction. It also covers supply and install of pressure sewer systems that includes On-property collection/grinder pump units, mechanical and electrical equipment, electrical supply and control, switchboard and cabinet construction, and construction of the pressure main. Applicants must demonstrate they meet the assessment criteria and other prerequisites for Category 1S to be eligible for accreditation in this Category.
3W	Major Infrastructure Water: this category of work covers the supply and installation of Pressure Reducing Valve's, Booster Pump stations, Cross connections, tanks, mechanical and electrical equipment, including electrical supply and control, switchboard and cabinet construction for water and recycled water. Applicants must demonstrate they meet the assessment criteria and other prerequisites for Category 1W to be eligible for accreditation in this Category.
4W	Steel Pipelines: This category covers supply and installation of steel pipelines (with a fusion bonded medium density coating and lining).
5	Ancillary: This category covers asset recording for categories 1 to 4.

## X. Requirements for the Contractor's Personnel

1. The requirements set out in the Accreditation Requirements Table below are the minimum requirements for the experience, qualifications and skills of the Contractor's Personnel. The Accreditation of a Contractor does not release the Contractor from its obligations set out in the Contractor Accreditation Deed regarding the experience, qualifications and skills of the Contractor's Personnel.
2. "Contractors Personnel" means the Contractor's officers, employees, agents, subcontractors, and the officers, employees and agents of subcontractors, and other persons engaged by the Contractor in connection with the undertaking of the Works or Services, including testing of works (as is relevant to the Contractor) and includes Key Personnel.
3. Each of the Contractor's Personnel must have an OHS Industry Induction Card (Red or White) irrespective of the type of Works or Services to be performed as well as any other qualification as required by Law, including OH&S Law.
4. "Key Personnel" means the employees that perform the Key Roles of construction supervisor.
5. Each of the Contractor's Key Personnel must fulfil all of the qualifications which are set out below in the column 'Personnel Qualifications' of the Accreditation Requirements Table.
6. The Construction Supervisor must be an employee of the Contractor.
7. In addition to the requirements for the Contractor's Personnel, if the Contractor is incorporated, the corporation must fulfil the requirements set out under 'Competencies' and under 'Company Requirements' of the Accreditation Requirements Table. If the Contractor is not incorporated, the sole trader itself has to fulfil these requirements.
8. Each requirement set out in the columns 'Personnel Qualifications' and 'Company Requirements' of the Accreditation Requirements Table must remain valid for a period of minimum 12 months after the submission of this Accreditation Application Form.

## Accreditation Requirements Table

Personnel Qualifications	Construction Supervisor	Company or Contractor itself if not incorporated
<b>M = Mandatory</b> <b>D = Desirable</b> <b>S = Sewer</b> <b>W = Water (including Recycled Water)</b> All or numbers in brackets = The respective requirements apply to all Accreditation Categories the Contractor is seeking Accreditation for or to the Accreditation Category as specified in the Definition section above.		
OHS Industry Induction (Red/White Card) Certificate	M (All)	
Confined Space training Certificate	M (All)	
Confined Space training (awareness) Certificate	M (All)	
Pipe laying accreditation Qualification (RIICRC208A or equivalent). Is now replaced by RIICRC208D	M (All)	
Trench shoring Certificate (RIICCM210A or equivalent).	M (All)	
Mobile Plant Operator Training Certificate (RIIMPO320B or NOHSC 7019 LE).	M (All)	
Dogman	D (All)	
Manual Handling	D (All)	
Worksite Traffic Management Certificate	D (All)	
Polyethylene Welding Accreditation Certificate	M (All)	
Spotters Electrical Safety Training Certificate	D (All)	
Sintakote Pipe laying Accreditation Certificate	M (4W)	
Authorised Welding Co-ordinator, shall hold as a minimum: (a) International Institute of Welding (IIW) International Welding Engineer (IWE), IIW, International Welding Technologist (IWT) or IIW International Welding Specialist (IWS) (Certificate of qualification)	M(4W)	
The Qualified Welding Inspector: (a) IIW IWE, IWT, IWS, IIW International Welding Inspector Standard Level (IWI S); or (b) current WTIA Welding Inspector Certification	M(4W)	
Asbestos Handling Licence		
Asbestos Awareness Training Certificate	M (All)	
First Aid/CPR Training Certificate	M (All)	
Working at heights Training Certificate	M (All)	
<b>Competencies</b>		
Substantial participation in three (3) previous relevant works. Please provide the additional information (references, etc) requested below.		M (2,3)
<b>Company Requirements</b>		
Management System 3rd Party Certified to ISO 9001, ISO 14001, AS 4801. or Civil Construction Management Code (CCF)		M (All)

Current WorkCover insurance (Certificate of currency)		M (All)
Holder of relevant MRWA Edition of Sewerage Code of Australia WSA 02.		M (All)

Holder of relevant MRWA Edition of Water Code of Australia WSA 03.		M (All)
Holder of Sewerage Pumping Station Code WSA 04.		M (3S)
Holder of Pressure Sewer Code WSA 07.		M (1S, 3S)
Holder of relevant BW Specifications and standards (supplements).		M (All)
NATA Calibration Certificates (testing only)		M (5)

---

## XI. Mandatory attachments

1. The Contractor must submit a copy of the certificates for every qualification which is mandatory for the Construction Supervisor and for every Company Requirement as listed in the Accreditation Requirements Table above.
2. The Contractor must submit a skills matrix table for the Contractor's Personnel that confirms qualifications and training.
3. If the Contractor proposes a replacement of the person of the Construction Supervisor or an additional Construction Supervisor, the Contractor must with its notification according to subsection 12.2(c) of the Contractor Accreditation Deed, submit a copy of the certificates for the replacement person or additional person for every qualification which is mandatory for the role Construction Supervisor.

---

## XII. Questionnaire

### Regulatory action/ Incidents and Injury

Has there ever been any investigation, civil claim or criminal action relating to an incident or injury to the Contractor's employees, agents or contractors including any occupational health and safety matters;

YES      NO

If yes provide details:

Which steps did the Contractor undertake to avoid such an occurrence in the future?

### Civil or criminal claims action construction work

Has there ever been any civil or criminal claim or action against the Contractor in respect of any construction work undertaken, including Works or Services?

YES      NO

If yes provide details:

Which steps did the Contractor undertake to avoid such an occurrence in the future?

### History with Australian Water Authorities

Has the Contractor had any situation where it has had its entitlement to undertake work revoked, cancelled or suspended by any other Australian water authority;

YES      NO

If yes provide details:

Which steps did the Contractor undertake to avoid such an occurrence in the future?

---

## XIII. Health Safety Environment (HSE) Contractor Handbook

Barwon Water has a handbook which sets out health safety and environment requirements for contractors and sub-contractors who work on Barwon Water assets ('HSE Contractor Handbook').

The Contractor must ensure, and with its signature the Contractor confirms that it ensures, that each of the Contractor's Personnel reads this HSE Contractor Handbook prior to commencing any Works or Services. A copy of the HSE Contractor Handbook can be found on Barwon Water's website.

## XIV. Competencies / Company Reference

Provide the following information for the three (3) most recent relevant contracts completed by the Contractor.

	1st Contract	2nd Contract	3rd Contract
Contract Description			
Client			
Name of Client Contact			
Phone Number Client Contact			
No. of lost-time injuries			
Total number of work hours on contract			
Total days lost-time due to injuries			

## Acknowledgment

I hereby certify and warrant that:

- the information in this form are accurate, true and complete in every detail and not misleading; and

I acknowledge that Barwon Water is entitled to refuse this application if it has reasonable grounds to believe that any information or supporting documents provided is incorrect, incomplete, false, or misleading.

By ticking this check box I confirm that I have read and understood all the statements above

Full name of person completing this application

Date
