| Type of BPD device at the property boundary | Make | Size | No. Of devices | Level of hazard (High/Medium) |
| Reduce Pressure Zone Device | | | | |
| Double Check Valve | | | | |
| Registered Break Tank | | | | |

Terms and Conditions

Compliance with Legislation, Standards and Barwon Water Policies

1. The Owner shall comply with the requirements of the legislation and Australian Standards set out below (and any amendments or replacements of any of them):
 - a. Plumbing Code of Australia 2011 in particular;
 - i. AS/NZ 3500.1:2003 – National Plumbing and Drainage, Part 1.2 water supply and;
 - ii. AS 2845:2010 – Water Supply – Mechanical Backflow Prevention Devices (BPD)
2. The Owner shall ensure that any BPD installed on the property complies with and is identified as complying with AS 2845:2010.

Please note:

The owner is also responsible for maintaining the potable water supply inside the property. Depending on the plumbing system and hazard ratings of the internal processes, you may wish to consider whether you need to install additional individual and/or zone protection backflow prevention devices, apart from the containment device at the property boundary.

3. The Owner shall comply with the requirements of the Barwon Water Backflow Prevention Containment Policy

Maintenance and Testing

4. In accordance with AS/NZ 3500.1.2:2003 you will need to ensure the BPD at the property boundary is:
 - a. installed by a person accredited for installation, commissioning and testing of backflow prevention devices;
 - b. installed so that access is available for inspection and servicing and so that freezing cannot occur;
 - c. installed in accordance with the manufacturer's instructions;
 - d. commissioned by an approved person at the time of installation and before opening onto downstream systems to ensure the device functions satisfactorily; and
 - e. tested by an approved person, at intervals of not more than 12 months in accordance with the manufacturer's instructions and the requirements of AS 2845:2010.

Copies of commissioning details and yearly test results must be forwarded to Barwon Water as a condition of supply.

You should also keep a Test and Maintenance Report Log which may be inspected by a Barwon Water representative.

I/We agree to be bound by the term and conditions Nos. 1 to 4.

I understand and acknowledge that:

- The information provided in this application is true and complete to the best of my knowledge
- Barwon Water may refuse this application if it becomes evident that any information or supporting documents provided is incomplete or false
- I approve the information that has been provided in this application
- This application does not signify consent by Barwon Water to proceed with the proposed works

By ticking this checkbox I/We confirm that I/We have read and understood the statements above
